
Vodafone WiFi calling available... shortly

[REDACTED]: I bought this phone specifically because of the wifi calling

Vaibhav V: We apologize for the inconvenience caused to you.

Unfortunately Google Pixel - Wi-Fi calling feature is not supported on our network yet.

We are working hard to include Google devices with Wi-Fi calling feature on our networks. This feature will be available on our networks within next couple of **months**.

[REDACTED]: That doesn't really help me now

[REDACTED]: Is there any official proof/statements that u can show me to confirm it with definitely come in the next couple of **months**?

[REDACTED]: Because I should have a 14 day cooling period so I may contact Dixon's and ask to switch to EE

Vaibhav V: I am sorry to let you know that we will not be able to share exact time and date for this feature to be included on our networks.

Vaibhav V: I sincerely apologize for the inconvenience caused to you.

[REDACTED]: Is there any sort of public statements showing a working agreement to bring it to Vodafone for pixel?

[REDACTED]: Alternatively, if I flashed a custom ROM onto my phone, would the wifi calling feature work?

Vaibhav V: At the moment only Apple and Samsung devices (only a few devices) are compatible with Wi-Fi calling on Vodafone network.

If you wish, you can return your handset in cooling off period and get a direct contract with Vodafone with Apple iPhone 7 or Samsung galaxy S8 that supports Wi-Fi calling feature.

[REDACTED]: Nah I like my pixel phone
